# Physica Medica

BioEnergetic Practitioner Repertory

**OVER 600 PAGES OF  
CLINICALLY- SPECIFIC PROTOCOLS**

*As practitioners in the exploding world of BioEnergetic Medicine and Sciences, we are constantly being made aware of the fact that conditions with which we are being asked to assist are increasingly poly-systemic in nature and as such, require a constantly updating, agile mind and heart, to accurately provide our protocols and procedures.*

*This most recent Medica, plays its part in the wellness landscape of the Legacy Continuum and will always be a work in progress. Accordingly, it is not to be viewed as an exhaustive study but rather an honourable and honest approach to provide quick-reference-assistance to the professional whose primary concern is with the health and wellbeing of those who come to us, seeking assistance.*
